STORM, SHADE & SECURITY SOLUTIONS

STYLISH PROTECTION FOR YOUR PROPERTY

ROLLSHUTTERS

Cariguard rollshutters are the ultimate in hurricane and security protection. They are maintenance-free and provide the strongest barrier against forced entry, hurricane winds, and flying debris.

Rollshutters also block the sun's intense heat and significantly reduce the cooling energy demand. They are a proven energy-efficient solution that will enhance indoor comfort and save you money.

Operation is simple with manual or motorized control. They can also be integrated with automation systems and/or smart technology for convenient operation from the room next door or from across the globe.

Choose from a variety of standard colours or over 1800 custom colour options.

COLONIAL SHUTTERS

Combine old world charm and maximum storm protection with Colonial Shutters.

Fabricated from extruded aluminum and mounted with stainless steel fasteners, Colonial Shutters can withstand winds up to 120 mph. They are easily closed and secured with hurricane bars in the event of a storm and are available in a variety of colours to suit your home.

WE CAN MANAGE ANY SIZED PROJECT – FROM BIG TO SMALL

Cariguard has been committed to manufacturing high-quality storm, shade and security solutions for nearly 40 years.

Having installed our products on countless applications across the globe, we have earned the reputation of a trusted industry leader with the expertise to handle any sized project with confidence and efficiency.

In 2002, we established our manufacturing plant in Barbados and have been proudly serving the community since.

SERVICE YOU CAN TRUST

We have developed a 4 step plan to ensure your satisfaction.

- 1 We will meet with you to determine your objectives and requirements.
- 2 Our technicians will define the product specifications and measurements.
- 3 Our installers will ensure an effective installation.
- 4 We will provide training in the operation and maintenance of your products and will always be available to assist with any questions or concerns during the lifetime of your Cariguard products.

BUILT TO LAST

Cariguard products are manufactured using the finest quality materials and the most durable components to ensure your property is well protected.

We also want you to feel protected with our comprehensive warranty.

Feel confident in knowing that your Cariguard products are covered covered for a worry-free, long-lasting storm, shade, and security solution.

SECURE & PROTECT

STORM, SHADE & SECURITY SOLUTIONS

- ✓ Rollshutters
- ✓ Hurricane Fabric
- ✓ Storm Panels
- ✓ Colonial Shutters
- ✓ Cleary Protected
- ✓ Accordion Shutters
- ✓ Bahama Shutters

Proudly manufactured in Barbados since 2002

HURRICANE FABRIC

Hurricane fabric is a flexible system that is used for larger openings and spaces that cannot be covered by other shutters.

Rated as a Category 5 hurricane product, this fabric is light-weight, easy to deploy and cost-effective.

Fabrics are available in white and tan.

CLEARLY PROTECTED

For permanent protection on windows or large glass areas, Clearly Protected are fixed panels that provide protection from forced entry, flying debris and winds up to 220 mph.

Made from polycarbonate material, they are virtually indestructible. Framing material is available in several standard colours.

ACCORDION SHUTTERS

Accordion shutters provide excellent protection against flying debris and forced entry. They are quick and easy to set up and conveniently fold away when not in use.

Accordion shutters are made from extruded aluminum with stainless steel fasteners and are available in a variety of standard and custom colours.

STORM PANELS

Storm panels provide an excellent economical solution for storm protection. They are lightweight, easy to stack and store in a small area, and can withstand winds up to 120 mph.

They are made from clear polycarbonate (Lexan) or aluminum. All fasteners are stainless steel with removable attachments if necessary for aesthetic reasons.

BAHAMA SHUTTERS

Bahama shutters give your home a flair of island elegance while providing protection against winds up to 120 mph. They also offer protection from the sun and provide privacy when desired.

Made with extruded aluminum and stainless steel fasteners, they have telescopic arms for easy operation and are available in a variety of colours.
