PRIMASOL
Elegant & Unique Awning System

Solidux is the leader in quality awning systems for the discerning customer. Assembled in North America, Solidux awning systems share in the long history of exceptionally engineered German products, with an unwavering standard of designing and manufacturing exceptional quality products of lasting value.

Committed to superior design and custom made for you, a Solidux awning is set apart by its fine details and precise yet simple operation. Featuring the strongest arm in North America, a Solidux awning is more wind resistant and sure to keep your awning fabric tight and even.

Offering the ultimate in awning products with a wide range of fabrics to choose from, Solidux is proud to stand behind awnings that are truly the class of the industry.

Elegant Design and Quality Materials
- for Great Looks and Fabric Protection!

STANDARD FEATURES

- Perfect connection of front bar and hood to protect from dirt, dust, and critters - and keep your awning looking good
- Aluminum tube encases fabric providing premium protection for a consistent and clean fabric right to the front bar
- Galvanized steel torsion bar and roll tube prevents your awning from twisting
- Heavy duty arms with triple springs and poly-coated dual stainless steel cables keep your awning fabric taut
- Forged cast aluminum shoulders and fittings combine sleek design with maximum strength for longer arm life
- Stainless steel hardware prevents rusting
- Quality bevel gear with adjustable end stop for your ease of operation
- Heavy duty extruded aluminum brackets provide great strength and a variety of mounting options for a custom fit to your home
- Choice of North American leading Sunbrella® fabric or Swela® awning fabric coated with a Teflon® finish for the most durable combination, sewn with long lasting Tenera thread for stronger seams.
