**SUNGUARD SCREENS™**

SHADE SOLUTIONS FOR YOUR HOME

BLOCK THE  
**SUN**  
NOT YOUR  
**VIEW**

**PROUDLY MANUFACTURED  
RIGHT HERE IN BARBADOS  
SINCE 2002!**

Cariguard exterior, retractable Sunguard Screens™ are the perfect solution for your home. Mount them on the exterior of your windows to improve the thermal comfort inside, or expand your outdoor living space with a spa enclosure or a complete retractable screen room.

#### COOL COMFORT

Installed on the outside of your windows, Sunguard Screens™ are like sunglasses for your home. They are designed to absorb the sun's heat and glare before it penetrates through the glass and reaches the interior of your home. They mitigate UV damage, optimize comfort and provide daytime privacy.

#### OUTDOOR LIVING

Turn any outdoor space into a private, shaded living area. Our Sunguard Screens™ provide wind, rain and insect protection which make them perfect for patios, decks, and even your garage.

#### STYLISH & SOPHISTICATED

Sunguard Screens™ are an attractive alternative to traditional interior blinds and window treatments. They compliment the exterior of your home while they save you money in expensive cooling costs.

#### EASY TO OPERATE

Sunguard Screens™ can be operated either manually or by motorized convenience. Cariguard offers a range of options from manual crank rod or tape operators to remote control, sun sensors, timers and even integration into home automation systems.

#### CUSTOM MADE

Cariguard Sunguard Screens™ are custom made using a vinyl-coated polyester fabric engineered specifically for exterior applications. Fabrics are available in a variety of colours and 3 different weave densities to provide the exact amount of shading desired. Each screen is tailored to fit your home specifically up to a maximum size of 19'2" in width and 14' in height.

#### STANDARD COLOURS

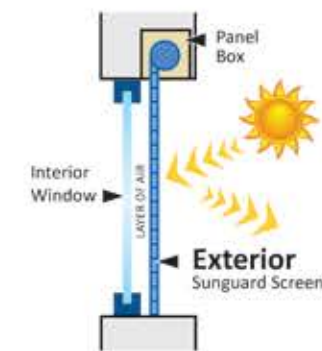

Or choose from over 1800 custom colour options available

#### EXTERIOR SUNGUARD SCREENS™ BLOCK HEAT because they are MOUNTED ON THE OUTSIDE.

Cariguard Sunguard Screens™ are many times more effective at blocking heat and reducing air conditioning costs.

#### VS INTERIOR WINDOW TREATMENTS

are far less effective because they are mounted on the inside letting the heat go into your home and allowing for solar heat gain.

#### SUNGUARD SCREENS™ VS. Interior Window Treatments
